
INTEGRA POWER IF

Composition: PA 64% - EA 36%

Weight: 220 gr/mq

Width: 150 cm

Roll Length: 55 mt

Details:
Innovative warp-knitted stretch fabric engineered for high-performance cycling shorts and bibs. Featuring a special patented technology developed by MITI, the fabric integrates two grip bands directly into the center of the fabric width, eliminating the need for additional silicone grip applications and enabling clean raw-cut edges. Its high-gauge construction and exceptional four-way stretch provide unrestricted freedom of movement, muscle support, and a perfect fit. Outstanding pilling resistance ensures long-lasting performance and durability, while its matte look delivers a refined premium feel.

The fabric is also available in full black version featuring black dope-dyed elastane and polyamide yarns.

Technologies:

POWER performance technology

End Use:
Base Layer //

Applications:
Athleisure/Fitness // Performance Sports //

Applicable treatments upon request:
Fresh and Anti-Odour, High Wicking, Water repellent
